

Call for Regular Contributions

- **July 4, 2025:** Submission deadline
- **July 25, 2025:** Notification of results and information about registration

Call for Late Breaking Results

- **September 15, 2025:** Submission deadline
- **October 1, 2025:** Notification of results and information about registration

Overview

Contributions describing recently completed work, preliminary results of work in progress, or successful systems and applications in all areas related to occupational exoskeleton use cases can be submitted for the conference. These can be submitted now as regular contributions or shortly before the event as late-breaking results.

Format:

All contributions must be submitted in the form of an extended abstract (max. 2 pages), written in English. The abstract must be submitted in PDF format before the corresponding submission deadline (23:00 UTC) using the following submission form using the provided template:

- Submission form: <https://form.asana.com/?k=aiGxzsXSVCJ1snHZ9rqAZg&d=14455298448247>
- Extended Abstract Template

Review and Presentation Format:

All submitted contributions will be reviewed by the program committee.

Accepted regular contributions will be presented in two formats: poster or oral. The authors can indicate their preferred format during the submission process. However, the program committee reserves the right to change the presentation format from oral to poster due to limitations in the number of oral presentations or based on reviewer evaluations.

Accepted late-breaking results can only be presented as posters. Poster presentations will be an integral part of the conference, with a dedicated session for interactive discussion between presenters and attendees.

At least one presenter per accepted contribution (oral or poster) must attend the conference.
