Press Release

A+A scores points with new hall concept and routing and opens its Ticketshop

Düsseldorf, 23 June 2023 – The tickets for A+A 2023, held from 24 to 27 October 2023, are available as of now via the following [Link](#). The eTicket offers a dual benefit: it saves money and time. Visitors can purchase their ticket online, print it out on their own printers or download it as a code.

For your trade fair visit and further trips in the city we offer you the “[Düsseldorf-Ticket](#)” care of Messe Düsseldorf and Rheinbahn. For rides outside the city area we recommend the “eezy Ticket” or the other bargain tickets offered by Rheinbahn and VRR.

At [aplusa-online.com](#) visitors not only find ticket registration but also all important insider information and handy tips and tools for visiting the trade fair such as a virtual exhibition catalogue and numerous personalised services for planning their tour of the trade fair as well as the interactive hall plan.

Under the motto “People Matter” numerous exhibitors will be presenting innovative solutions and concepts revolving around safe and healthy work at A+A 2023. This year, the overarching theme of the leading international trade fair will be the two megatrends digitalisation and sustainability.

In addition to a spectacular Corporate Fashion Show visitors are in for further exciting forums as well as an extensive congress programme with international appeal: including the 38th International Congress for Occupational Safety and Occupational Medicine as well as the WearRAcon Europe, to be held in Germany for the first time as part of A+A. Likewise, such topics as ergonomics and New Work will be given significantly more visibility owing to new cooperations and expert lectures.

Furthermore, A+A organisers have changed the hall concept and optimised routing at the exhibition centre: the halls have been clearly segmented according to theme, thereby placing similar products and services in close proximity with each other. This makes it easier for visitors to locate the companies exhibiting ranges of particular interest to them and to find their bearings at the fairgrounds.

Also new: Hall 15 will present Corporate Wear and Hall 16 an 17 the complete spectrum of components and accessories for manufacturing up-to-date protective wear.
